Please check all that applies:

I use a [ ] MAC [ ] PC/Windows [ ] Smart-TV [ ] iPad [ ] Blu-ray Player [ ] DVD Player

I want to edit my transfer, and I will be using a [ ] MAC [ ] PC/Windows

I want:

- [ ] Cost Saver - I don't care a lot about results - just really want it transferred. (High quality transfer but no additional image-enhancement work will be performed.)
[ ] Do what you are known for - if needed, perform extra image-enhancement work. If more work will bring better results, we'll email you "before and after" sample images and await your approval.
[ ] Option (minimal fee) - Provide all important intermediary files: "RAW capture", "with-", and "without-grain reduction". This way you have it all, and you can choose which version you prefer to view. Requires more hard drive space.
[ ] Option (minimal fee) - Make it easy for me to share my transfer by also providing MP4 files

Target Media - select one or more:
[ ] Flash-drive/USB-Stick [ ] Hard Drive
[ ] Blu-ray (in HD) (how may copies/sets?) .....
[ ] DVD (not in HD) (how may copies/sets?) .....

- [ ] I accept FilmFix's General Business Conditions as posted on the website.
[ ] I have numbered the reels, in chronological order, as best I was able. (Film Fix customer retains their own copyright - unlike some other companies' policies.)
[ ] I understand FilmFix will not transfer copyrighted material. (Please only send movies you personally filmed.)
[ ] We ask that you pay return shipping of your materials, IF you decide to have your transfer needs met elsewhere. Otherwise we pay return shipping!
